Re: Appl. # 10/032,535 – Method and System For Facilitating Secure Transactions

Dear Tim:

Thank you for taking the time to meet with me yesterday on the subject application. I thought our discussion was frank and productive – as always – and look forward to a reconsideration of the rejections in view of the points we discussed.

I filed a formal response today containing those points, and I look forward to hearing from you soon.

Sincerely,

A handwritten signature in black ink, appearing to read "John A. Galbreath".
